**After Hours Dumping
Policies and Procedures**

Effective June 13, 2017

When necessary for a contractor to dump broken concrete after established hours, we will require a charge of \$100.00 per hour with a minimum of \$500.00 per occurrence. Any standard tipping fee would apply as well. Should you require Recycled Aggregates to supply an operator and machine, additional costs will apply. We only receive clean broken concrete with a maximum size of 2'x 2'x 2'. It will be the contractor's responsibility to supply security personnel at the given site for the entire time period established. We would expect a minimum 24 hour notice to prepare for your needs. Keep in mind the closest facility may or may not be available due to existing volumes of raw concrete.

This process will be handled through our Sales Department at 734-783-7400 during normal business hours. Thank you for your understanding and cooperation.
